

Subject: FedMall V22.4.1 Public Release Notes
 SP4709-17-D-0034/SP4709-20-F-0098

1.0 Release Details

FedMall Release v22.4.1 will go live on July 28, 2022. These notes describe all functional changes and how those changes affect the use of FedMall.

1.1 Purpose

This document captures the functional release notes describing an update to the FedMall system. Except where otherwise noted, this document describes the availability of new or updated functionality in the Production (“PROD”) environment, i.e., available to the generality of FedMall users.

1.2 Release Overview

System	FedMall
Availability Date	July 28, 2022
FedMall Software Version	v22.4.1

1.3 Commerce – COA -1 Updates

Change Request	Description	Reference ID
Users can add to Frequently Purchased Items List with the correct quantity of items, when quantity per unit pack is greater than one.	Fixed the count when adding items to FPIL, so that items with a quantity of more than 1 per pack will display in the UI with the quantity of packs the user input, and not the total number of items in the packs.	CHG0032090
Order Totals recalculates with NSNs that require price Refresh, on Saved Orders page.	Invoked order-item recalculation for Saved Orders with NSNs that require price refresh, on the Saved Orders page an account.	CHG0032086
Add MRA Language to Checkout & Invoices.	Added MRA Language during checkout at the top of the billing and shipping page, in Order History invoices, and on the Print Invoice page (after checkout).	CHG0013651

Retrieve Contracting Office data from SAM.gov for Commerce users.	Ensured that the UI is making a call to SAM.gov to retrieve contracting office DoDAAC information, when adding a GPC.	CHG0030342
FPDS Contracting Office Reference Removal	Removed the FPDS Contracting Office Spreadsheet link from the consent banner on FedMall's landing page, at the top of the page when adding a GPC, and in the message when hovering over the on the Contracting Office DoDAAC field when adding a GPC.	CHG0034960
Implement additional audit tracking to capture administrator actions in Users Profile History.	Update the database table with additional audit tracking so that the User Profile History updates when an action is performed by an Administrator.	CHG0035061
