

Subject: FedMall V20.3.2 Public Release Notes_FINAL
 SP4709-17-D-0030/SP4709-18-F-0100

1.0 Release Details

FedMall Release V20.3.2 will go live June 5, 2020. These notes provide a description of all functional changes and how those changes affect use of FedMall.

1.1 Purpose

This document captures the functional release notes describing an update to the FedMall system. Except where otherwise noted, this document describes the availability of new or updated functionality in the Production (“PROD”) environment, i.e. available to the generality of FedMall users.

1.2 Release Overview

System	FedMall
Availability Date	June 5, 2020
FedMall Software Version	V20.3.2

1.3 Update to FedMall Commerce (Shoppers and Buyers)

This software release includes an update to the following capability:

Capability	Description	Reference ID
Tools	Applied fix to allow FedLog downloads for users without a Command listed in their profile.	89316

1.3 Appendix: Additional Update

The following out-of-cycle change was tested and released to FedMall Production prior to the v20.3.2 release and will continue to be supported:

Capability	Description	Reference ID
Order Processing	Checkout rules are introduced to prevent shoppers from placing orders with a Government Purchase Card (GPC) having incomplete Procurement Authority information. An error message now displays instructing shoppers to correct the selected GPC payment method by re-entering their Contracting Office DODAAC before they can proceed with the purchase.	88477
