

FedMall currently contains a number of DLA contracts that include items in Federal Supply Classes (FSC) managed by GSA. DLA and GSA have jointly agreed to remove these FSCs and associated items from DLA FedMall contracts on a rolling basis. FSCs affected by this action are listed below. GSA currently provides support for these items through GSA managed supply schedules, many of which appear on FedMall. **Removal of these items from DLA managed contracts should be transparent to DoD customers as similar items will be available on GSA managed contracts on FedMall.**

We will remove items in GSA managed FSCs from DLA FedMall contracts in a phased approach. New DLA FedMall contracts awarded from this point will not include items in GSA managed FSCs. Existing contracts will continue to include these items until the next contract option period is exercised. As those contracts are extended, the items in GSA managed FSCs will be removed.

If you search for an item on FedMall and cannot find what you are looking for, there are several non-FedMall ordering alternatives:
